**15 Haitian Education Centers being helped.** Debbie continues to develop Haitian Education centers for children. Church schools are in place in various towns and villages throughout the province. With the help of sponsors, teachers are being paid to work alongside pastors and provide a much needed education to the children using the church as a school facility. After teacher salaries are paid, any extra funds left over provide meals for the children. The \$25.00 monthly from sponsors pays all this. Currently the greatest immediate need is for the Cutupu project. With 110 children coming faithfully to class, we have a burden to help them. The building they are meeting in is a poor wood and tin structure with no bathroom. They are in dire need of a new location. We are making a push to purchase land and build a facility for them and the church. Our estimate is \$18,000.00 needed to purchase land, and another \$25,000.00 to build a nice concrete structure with 8 classrooms, bathrooms, a dining/fellowship area and a kitchen. Will you or your church consider donating something towards this project? Contact Debbie at 1-863-248-1119, or email her at lavgaschool@gmail.com.

**United For Him a great success!** The event brought together more than two thousand young people every weekend in February for a time of celebration and worship. Over 35 Christian artists of different music genres were on hand to encourage the youth; Isabel Valdez, Bobby 6m, Araona, Jameson, EBT Band, and more!

This year one of the highlights were two weekends when from 7Pm Friday to 7PM Saturday 24 hour non-stop worship and prayer were offered on behalf of the spiritual needs of the city of La Vega.

### Calvary Academy Visiting

Even the rain couldn't stop these H.S. Seniors from New Jersey from pouring their hearts out to the children of the Rieles and other areas. Dramas, Puppets, Music, and Testimonies were the tools to present the Gospel.
